Santa Barbara County

Grantee: California Department of Parks and Recreation

Amount Awarded: \$60,344.00

Grantee Contact: Nathaniel Cox

CalRecycle Grant manager: Alan Zamboanga

Project Summary: Construction of 8" thick reinforced shotcrete cover ranging from approximately 4' to 12' in height over a 106 linear foot section of coastal bluff at the location of an eroding historic dumpsite. The cover would begin at the lower bedrock layer or asphaltum base layer around the toe of the bluff and be built up and over the bluff face to meet coverage requirements for the exposed historic dump and would be stained and finished to match the appearance of the existing bluff and weathered asphaltum features. The shotcrete cover would be secured to the bluff face using soil nail tiebacks and would also be epoxy anchored into the bedrock and/or asphaltum shelves above the sandy beach. A 220 square foot section of existing asphalt paving along the top of the bluff and an adjacent 1,000 square foot section of existing ice plant would be removed and replanted with native plants as a part of the project.

Total Awarded for County:\$60,344.00

Grant Count: 1	Grand Total for Selected Counties: \$60,344.00
